A Plague of Angels

At Theatre in the Round in Minneapolis

Friday, Saturday and Sunday Performances

Oct 17- Nov 9th, 2008

“Marvelous and unnerving, funny and hair-raising”- **NEW TRIBUNE**

This compelling drama is based on the true story of Mary Mallon, an Irish immigrant in turn-of-the-century New York. Healthy herself, Mary was a carrier of typhoid fever who, working as a cook, unwittingly helped spread a deadly epidemic. Fast paced scenes and flashbacks will draw you into the clash between Mary fighting for her own freedom and the doctors trying to protect the public.

This powerful play chronicles her process to accept her culpability in these deaths, the challenge of the medical staff who keeps her quarantined and the struggles of the new priest who frequently comes to visit her.

Special Discussion for Health Care Providers!

Theatre in the Round will have guest commentators to lead discussions on the ethical implications after two of the Sunday performances.
